

Good news everyone!

We have been awarded the
Woodland Trust
Green Tree School Bronze Award

We were given the award because of our recycling efforts and the Eco-Committee's work on how we can increase bio-diversity in our school grounds.

We are now going to work towards our Green Trees School Silver Award

Some of the things we have planned include:

- A special school assembly when we will hear a story called "The Man who Planted Trees"
- Planting some new trees and hedging in our school grounds

Just before the autumn half term some Eco-Committee members walked around the school grounds, and they took some lovely pictures of what they saw

Low down on the ground - a bug's view!

Up close

From beneath, looking upwards

Thank you Finley, Adde, Oscar, Rebecca, James and Mrs Parsley for your lovely photographs

You can see all the photos they took in the book below.

Do you have a drawing of something you have seen growing in our school grounds to add to the book?

If you do have a picture please take it to Mrs Scott.
